OVERVIEW OF
FORSCOM REGULATION 220-2
Reserve Component Training Assessment

AGENDA

- Historical Information
- Commander's Training Assessment (CTA)
- TS XXI Supported External Evaluation (EXEVAL)
- Questions

HISTORICAL INFORMATION
BACKGROUND

- **FORSCOM undertook a major revision of training regulations in TY03**
- **Revision eliminated the TAM and Organizational Compliance Evaluation Program (OCEP)**
- **FORSCOM Regulation 220-3 eliminated**
- **FORSCOM Regulation 220-2 retitled-Reserve Component Training Assessment**
- **Regulation created three new programs
  -Commander's Training Assessment (CTA)
  -TS XXI Supported EXEVAL
  -Unit Readiness Validation (URV)**

HISTORICAL INFORMATION
Why FORSCOM Rewrote
FORSCOM Regulations 220-2 & 220-3

FORSCOM Regulation 220-2—Organizational Compliance Evaluation Program

O C E P

- Contrary to the law—Conducted by TAGs and RSCs vice "Regular Army"
- Lacked standardization—each TAG and RSC implemented their own program
- Applied to < 25% of RC units
- Lacked enforcement power (CONUSA vs. TAG)
- Duplicity—TAM and OCEP redundantly collected similar data
- No direct relationship to USR or premob training requirements

FORSCOM Regulation 220-3—Reserve Component Training Assessment

T A M

- TAM requirement drove AT training plan instead of RC training strategies in FR 350-2 determining AT training events
- Unsupportable without significant AC augmentation—super-grade requirements & low density MOS's
- Redundancy—135 of 148 data elements were reported elsewhere
- Indirect correlation to USR

HISTORICAL INFORMATION
Key Changes Contained in the
New FORSCOM Regulation 220-2

- Integrates FC Regulations 220-2 (Organizational Compliance Evaluation Program—OCEP) and 220-3 (Reserve Component Training Assessment)

- Transforms OCEP into a new, streamlined Unit Readiness Validation

  – Complies with the law (32 USC, Sec 105) unlike OCEP which did not

  – Conducted by CONUSA IGs (USP&FO) and CONUSA TS XXI assets vice TAGs and RRCs

  – Standardizes the format

  – Applies to 95% of RC units vice 25%

  – Documents successful accomplishment of FR 350-2 training requirements

  – Correlates with USR training readiness data

- Converts Part IV of the TAM into an EXEVAL

  – Embeds EXEVAL in FR 350-2 directed training events (lanes, simulations, exercises, etc.)

  – Focuses on METL training and evaluation

  – Eliminates redundancy (135 of 148 data elements in the former TAM were captured elsewhere)

  – Minimizes passbacks-- EXEVAL conducted by lane, simulation, or exercise OC/Ts in conjunction with FR 350-2 directed training events

Synchronized with Title XI, NDAA, 32 USC, FMs 7.0 & 7.1, and FORSCOM Regulations 350-2 & 350-4

COMMANDER'S TRAINING ASSESSMENT (CTA)

- **Replaces Part IV (METL/Evaluation) of TAM**
- **CTA module in TESS for ARNG and RLAS for USAR use**
- **TAM disk will upload the METL tasks to the CTA**
- **Required for all "AA" units, sub-elements of BNs, and company level RC elements of multi-compo units**
- **Completed at least quarterly in conjunction with USR**
- **Commander's assessment on CTA assists in generating T-rating for USR**
- **EXEVAL created by using information from the CTA module in TESS**

CTA
IMPACT ON RC COMMANDER'S

- RC Commander's must be able to access TESS
  - Commander's use the internet to access TESS on the FORSCOM WEB site

   - Commander uses AKO password to access /create CTA in TESS for his/her unit

- Commander can create CTA from any previous TAM disk or it can be created as a new document

- Commander must update quarterly to assist with development of the T-Days for USR

- Commander must determine on CTA what tasks will be trained pre-mob/post-mob or both and if to be trained at IDT or AT

CTA
IMPACT ON OCONUS SPONSOR

- **OCONUS sponsor must ensure that RC unit has a CTA in TESS or will bring a previous TAM disk with them to create the CTA**

- **OCONUS sponsor must coordinate with the RC unit commander to determine on CTA what tasks will be trained/assessed during the ODT period**

AC SUPPORTED EXEVAL

- Replaces the AC evaluation portion (Part IV) of the TAM
- EXEVAL does not equal TAM; EXEVAL equals formal written AAR
- Principal value is feedback to the RC unit commander.
- Required once every three years for each company equivalent (approximately 600 per year)
- Conducted in conjunction with a TS XXI/AC supported lane, simulation, gunnery, ODT or exercise
- TDA units are exempt
- CTC rotations with OCs, BCTP, BCBST, and LTP are equivalent (CMTC is an equivalent)
- Documented on FORSCOM Form 1049-R in TESS

EXEVAL
IMPACT ON RC COMMANDER

- Required to be conducted once every three years

- Must be conducted in conjunction with a AC supported lane, simulation, gunnery, ODT or exercise

- RC Commander must ensure that training is scheduled that will permit an EXEVAL a minimum of once every three years

- FORSCOM FORM 1049-R is generated by the evaluator using the EXEVAL module in TESS

- RC Commander must ensure that CTA is current in order to pull METL tasks over to EXEVAL

EXEVAL
IMPACT ON OCONUS SPONSOR

- **Effective 1 Oct 03, OCONUS sponsor conducts EXEVALs on units identified at the OCC as requiring one**

- **OCONUS sponsor personnel responsible for conducting EXEVALs must be able to access TESS via internet**
  - OCONUS sponsor personnel request passwords to conduct an EXEVAL from the FORSCOM TESS Administrator via password screen in TESS

  - OCONUS command must notify appropriate CONUSA when they have completed an EXEVAL in TESS so it can be authenticated

- **EXEVAL created using the EXEVAL module in TESS**

- **METL tasks on EXEVAL populated from existing CTA or TAM**

- **EXEVAL must be entered in TESS by OCONUS sponsor, authenticated by TSB commander, TSD commander, and CONUSA commander**

How do You get Access to TESS?

RC Unit Commander

AKO

Army Commands:
- FORSCOM
- CONUSA
- TSD/TSB/TSBn
- MACOMs
- Installations
- USARC
- RRCs (RSCs)
- NGB
- TAGs
- STARCs
